

Flower Mesh

Fencing Solutions / Garden & Trellis Mesh

- For growing sweet peas, and trellising
- Can be used for plant protection
- Suitable for temporary animal enclosures
- Available in galvanised wire and decorative green PE coating

PROTECTS PLANTS WITHOUT OBSCURING THEM

Whites Flower Mesh is ideal for growing sweet peas and as trellising for training plants. The 50mm (2") aperture protects plants without obscuring them. It is also strong enough to be used for plant protection and temporary animal enclosures.

Flower Mesh comes standard in 30m packs, and is also available in convenient 5m and 10m packs for smaller jobs.

Code	Product Description	Height cm	Length m	Aperture mm	Wire Dia. mm
20850	Flower Mesh - Galvanised	90	30	50 x 50	1.24
