About Oxy-Shield

Oxy-Shield is a specially formulated landscaping steel designed to impart a decorative rust-look without the inherent degradation of regular steel. The surface oxidises to form a protective coating resistant to corrosion and flaking - a durable long-lasting steel.

Rustic tones will further develop and enhance over time; to accelerate the effect, spray regularly with a fine mist of water. With a rich, earthy patina - a favourite amongst landscapers, the decorative finish blends effortlessly into any backyard or courtyard setting and with traditional and modern gardens.

Code	Product Description	Height
18448	Oxy-Shield Interlocking Edging Corner	200mm

Handy Hint:

- Always wear protective gloves and glasses during installation.
