FOR SECURING NETTING TO LINE WIRES

Whites Netting Clips, which comes in 16mm and 19mm are steel C clip shape for securing netting to line wires.

With a strong durable galvanised coating, these clips are easy to use and will suit up to 2.24mm diameter line wire and netting.

For a neat and safe tie, these netting clips should be attached using Whites Netting Clip Pliers: the Red handle is designed for use with 16mm clips and the Green handle is designed for use with 19mm clips.
