

Super Gutter Guard Gutter Protection / Gutter Mesh Rolls

- Small aperture stops fine leaves and debris
- Allows good water flow
- Fits standard gutters
- UV stabilised for extra life
- Easy DIY installation

Easy DIY Instructions

NOTE: For easier installation and maintenance, cut the Super Gutter Guard panels approximately 10cm longer than the gutter to allow for overlap and fitting into the gutter.

Method 1

Peel back the mesh edge at the gutter and roll the mesh onto the gutter.

Method 2

Roll the mesh onto the gutter and press the mesh into the gutter.

Method 3

Press the mesh into the gutter and roll the mesh onto the gutter.

HEAVY DUTY GUTTER MESH

Whites Super Gutter Guard is a heavy duty gutter mesh made from recycled plastic and UV stabilised for long life. It is easy to install and designed to fit most gutters.

Code	Product Description	Roll Size
19998	Super Gutter Guard - Black	180mm x 8m

Handy Hints

- In locations with a high risk of bushfire we recommend the installation of [Whites Fire Guard Gutter Guard](#) or [Whites Ember Mesh Stainless Steel Guard](#)
